

QAR Question Type Practice

The wind had picked up. After three windless hours, they were moving once more. The sun was straight overhead. It was noon. If the winds kept up, the travelers would reach port by six o'clock, just in time for dinner.

What time of day was it?

(Right there)

About how much longer will it take the travelers to reach port?

(Think & Search)

What is the travelers' means of transportation? (Author and me)

What is your favorite way of traveling? (On my own)
